YOGESH VIDHAULIYA

Full Stack Developer | MERN Stack | React.js
Noida, Uttar Pradesh, India | +91-9389863182 | yogeshvidhauliya48@gmail.com

PROFESSIONAL SUMMARY

Full Stack Developer with 1+ year of hands-on experience building production web applications using the MERN stack (MongoDB, Express.js, React.js, Node.js). At Syrotech Networks, designed and delivered a company-wide ticketing platform with five role-based portals, an L1-L4 escalation engine, SLA tracking and attendance-based auto-assignment, and built a freight calculator that computes final courier delivery charges by pincode or state. Experienced in real-time device-monitoring dashboards, RESTful APIs and responsive, scalable front-end architecture. Strong problem-solver who turns business requirements into reliable, user-friendly software.

TECHNICAL SKILLS

Frontend: React.js, JavaScript (ES6+), React Hooks, HTML5, CSS3, Responsive Web Design
Backend: Node.js, Express.js, RESTful API Design
Database: MongoDB
Tools & Languages: Git, GitHub, C++, Python

PROFESSIONAL EXPERIENCE

Full Stack Developer (React.js / MERN Stack) Aug 2025 - Present
Syrotech Networks Ltd. | Noida, India

- Developed the React.js front end for a UHF Reader product that processes real-time FASTag scan data streamed from multiple IP-based devices.
- Built real-time device-monitoring dashboards using React Hooks and a reusable component architecture, improving visibility into live device status.
- Delivered an ONT Router web interface for router configuration and system monitoring, deployed to production.
- Designed and built a company-wide ticketing platform (MERN stack) with 5 role-based portals: Customer, Sales, Support, Admin and Internal HR/IT.
- Engineered an auto-assignment engine that routes tickets to specialized agents, with automatic L1-L4 escalation when SLA thresholds are missed.
- Built admin controls for ticket reassignment, reopening, agent attendance tracking and SLA/performance report exports.
- Implemented a post-resolution customer feedback flow with multi-filter views (Open, Reopened, Resolved, Reassigned).
- Built a complete freight calculator (front end and back end) that fetches courier company rates by pincode or state.
- Calculates the final delivery charge for a product, so the total freight cost is shown before dispatch.

Frontend Developer Intern Jul 2024 - Aug 2024
Zibal Technologies Pvt Ltd. | India

- Built and optimized web applications using React.js and JavaScript.
- Improved component architecture and UI responsiveness across multiple product modules.

PROJECTS

Bhagwati Sales and Fire Company Website - React.js 2025

- Built a responsive business website for Bhagwati Sales and Fire Company showcasing fire-safety products and services, with a clean layout and easy customer contact.

E-commerce Website - React.js Feb 2025 - Apr 2025

- Built a responsive product listing experience with search, category filtering and add-to-cart functionality.

EDUCATION

B.Tech, Computer Science & Engineering 2021 - 2025
JSS Academy of Technical Education, Noida | CGPA: 7.1
